Uncover, Explore & Unleash your Creativity!

Musical skills not required!

Creative Mindset Workshop

Participants will gain new understanding into how to use their creative gifts in life and in the workplace to enhance teamwork and productivity.

Team exercises will inspire individuals to discover their own creativity through group support and feedback.

Get out of the Box with Beat

In this upbeat workshop, participants will use simple percussion instruments and drums to unite together through musical exploration using different rhythm styles to stimulate new ideas.

Teams will create their own rhythms and perform for the group.

Songwriting

Writing a song will prove to be a great way for your team to brainstorm in a new way, reach new levels of cooperation, and find ways to express thoughts and ideas in a concise, clear way.

Teams will be expertly guided to come up with an idea, create lyrics and perform.

Drum Circle

Drumming is one of the earliest forms of musical community and drumming in unison is a powerful way to experience group energy.

This experience fosters a positive group dynamic that will energize and inspire every participant.

Improvisation

Participants will explore improvisation through music, writing, and speaking. Each person will have an opportunity to improvise in a way that feels authentic to them with support from their team.

Teams will learn to be flexible, spontaneous and creative.

Creative Listening

This experience will foster new listening skills to enhance communication and refine listening. Using music of different genres, the group will be guided to listen for different elements in the music and explore how these elements influence the listener and draw the listener in emotionally.

Paint & Play

Your team will paint a group mural that will stimulate your teams' creative juices as they listen to live music.

The combination of the live music and creating a piece of art will be an experience your team will never forget.

The art will be a great memory of our day together.

Yoga and/or Meditation with Live Piano

This experience will guide your team through a healing and relaxing experience that will leave them feeling invigorated and renewed with a one-of-a-kind wellness experience.

Your team will return to the workplace with more ease and balance.

Wendi's art-centric workshops are designed to help groups learn skills that can be used in the workplace and in life.
